About

About Dr. Ahmed Alnehlavi

Dr. Ahmed Alnehlavi is a specialist in restorative dental care at BM Türkiye in Istanbul. He oversees clear aligners and gum contouring — straightening teeth without braces and shaping the gum line around the smile. He speaks Turkish, Arabic and English.

Treatment approach

- Reviews your photos and X-rays before you travel
- Explains your plan and its price in writing before treatment starts
- Follows your recovery with your coordinator after you return home

Languages

English · Turkish · Arabic

Orthodontics · Smile Makeover

Where Dr. Ahmed Alnehlavi can help you

Clear Aligners

Transparent aligner therapy for controlled tooth movement without traditional fixed braces.

Gum Alignment

Soft-tissue contouring for balanced gingival symmetry and better smile framing.
